ABOUT US

Established in 2019 with the vision of "Engineering the future with passion". Leading manufacture of high quality rubber and Plastic products in United Arab Emirates . Galaxy caters to the demand of customers from wide range of industries by providing inventive solutions using our in home facilities and capacities. As a manufacturer we are responsible to produce high quality sustainable and environmental products.

We produce wide range of plastic products in our own facility in India which includes polypropylene materials, HDPE products, high quality PVC products. The Company is equipped with Injection Moulding and Extrusion blow moulding facilities and can cater to any customized moulded products as per requirements. Galaxy ME has tie up with various distribution brands locally and internationally, whereby the company can deliver best technically advanced products to construction projects specially for aluminium and glass industries.

Our Products Ranges Includes

Architectural Rubber Products

- EPDM Rubber Products
- Premium Quality PVC Gaskets, Rigid Profiles
- Thermo Plastic Elastomer (TPV,TPE) Gaskets

PVC Thermal Isolators | High Quality Tapes & Packaging Materials | Safety Products

Polyethylene Foam Products | Glass & Aluminum Accessories | Hardware & Tools

A Complete Fasteners Solutions | Silicon Sealants & Glass Doubling Products

A Complete Range Of EPDM Rubber Gaskets

EPDM rubber (ethylene propylene diene monomer rubber) is a type of synthetic rubber that is used in many applications. EPDM, have much better resistance to heat, light and ozone than unsaturated rubbers such as natural rubber, SBR or Neoprene. As such, EPDM can be formulated to be resistant to temperatures as high as 150°C, and properly formulated, can be used outside for many years without degradation. EPDM has good low temperature properties, with elastic properties to temperatures as low as -40°C depending on the grade and the formulation.

We at Galaxy ME, Quality consistency is maintained for all our rubber compound properties as we strictly comply with German Standard (DIN-7863) for the manufacture of elastomer gaskets for use in windows and facade construction. Dimensions are maintained as per BS-3734 and gaskets are compatible with silicone sealants. Our polymer compound can also be formulated to meet various other standards like ASTM C-864, BS-4255 or as per the project requirements.

EPDM Rubber Gaskets

						
						
						
						
						
						
						
						
						

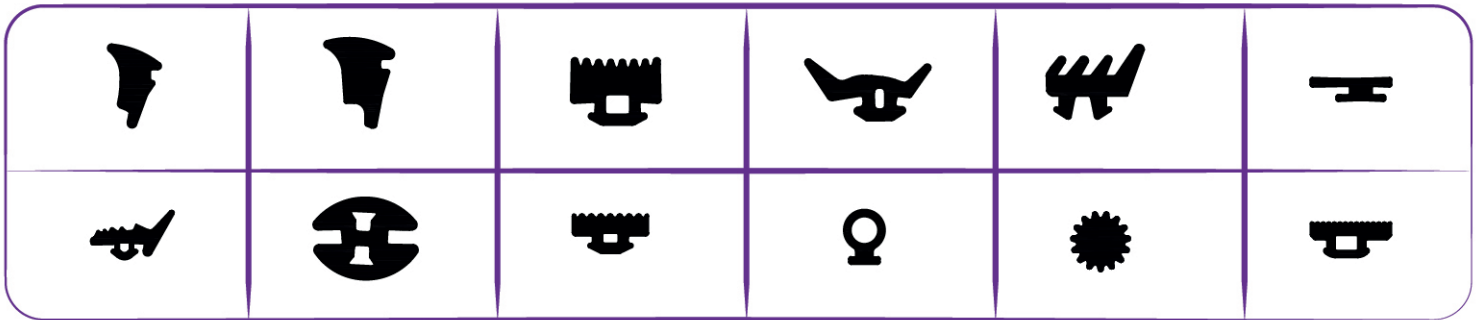

A Total Range Of PVC Gaskets

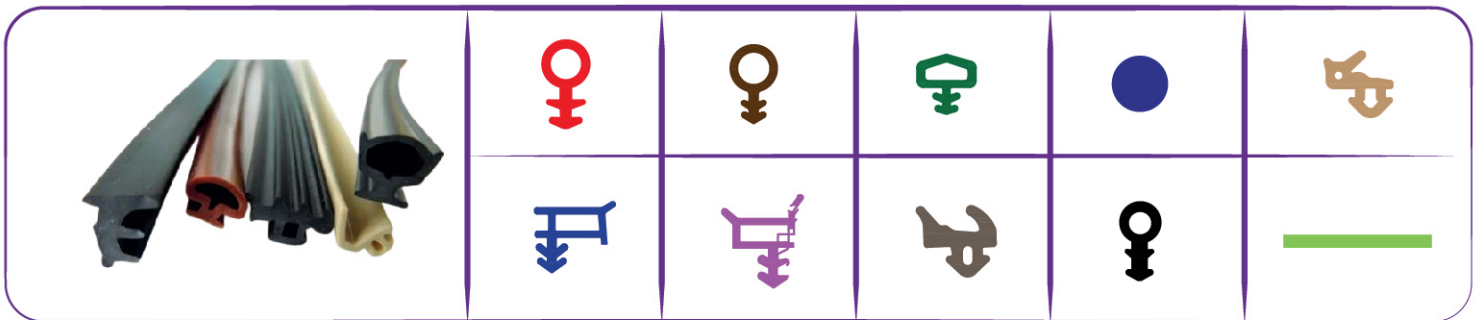

PVC (polyvinyl chloride) is a thermoplastic material . PVC comes in two basic forms: rigid PVC (also known as uPVC or RPVC) and flexible (soft) PVC. Both rigid and flexible PVC are cost-effective solutions that can be combined with a broad range of additives to enhance performance versatility.

PVC is a versatile material, but supplying the right rigid or soft part depends on your specific design needs and budget. PVC can be formulated and manufactured in many different ways like different shapes and colors which is why Galaxy works closely with customers to provide them with custom PVC parts tailored specifically for their applications.

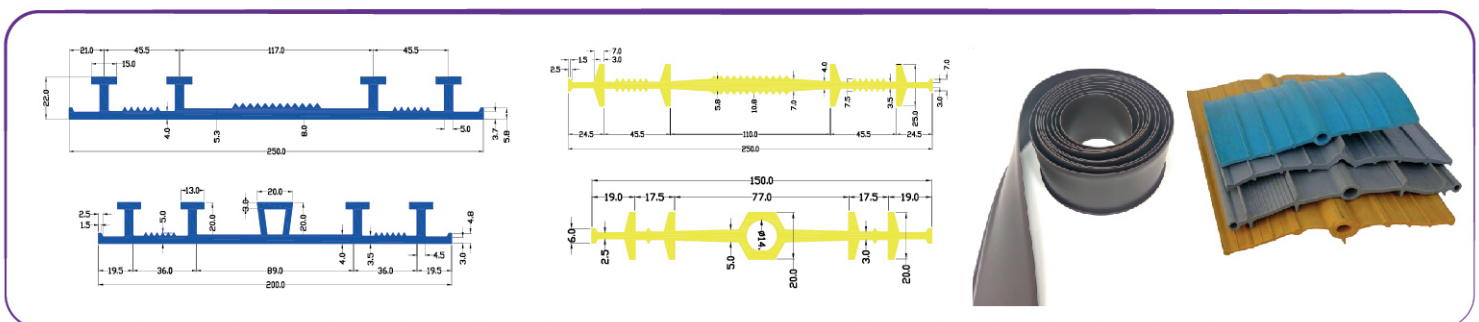

PVC rubber gaskets

PVC Colour door seal

Skirtings & Water Stopper

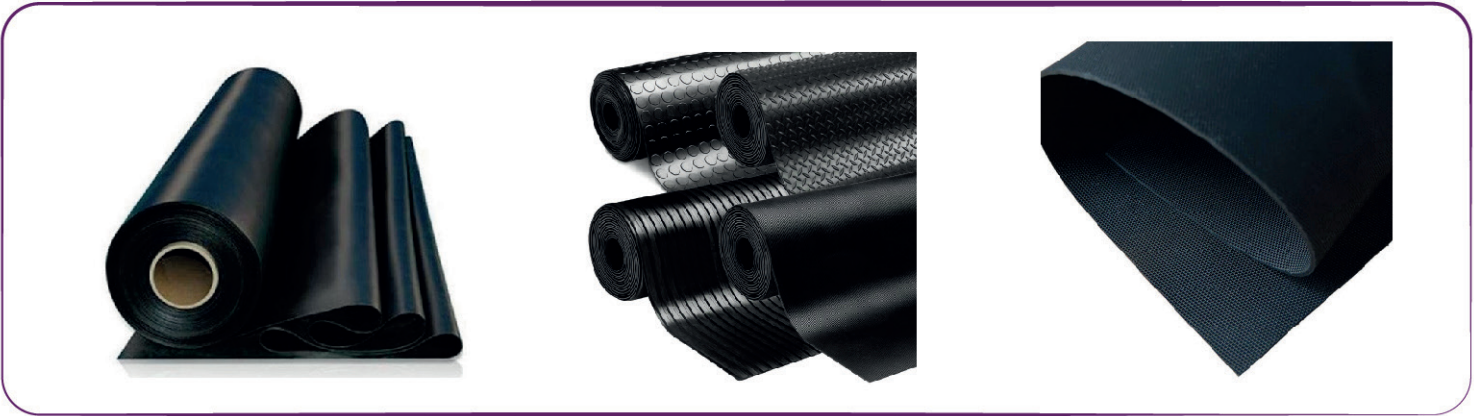

EPDM Rubber Sheet / Water Proofing Membrane

EPDM rubber sheets offers excellent versatility in both indoor and outdoor applications. EPDM sheets can be used for automotive and industrial applications, sealing and jointing etc.

Colour available: black

Standard size: 1.2 mtr x 10 mtr(thickness 1 mm to 50 mm)

Building Protection System

Rubber Corner Guard

Rubber Wall Guard

Rubber Speed Humps

Rubber Wheel Stopper

Other Products

Rubber D-Fender

Cable Protector

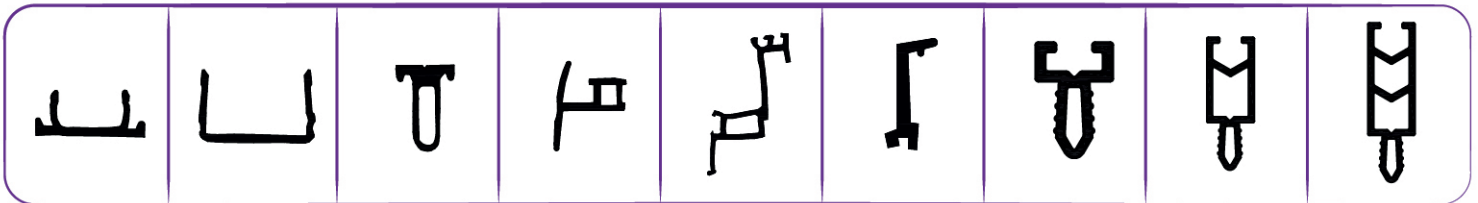

Rubber Pads

Block Fenders

All Kind Of Plastic Products

At GME we design, develop and produce all types of plastic products in our state of the art production facility in India. Currently the company is equipped with injection moulding and extrusion blow moulding facilities and is capable to serve any requirements of automotive, packaging and construction industry. And we are mainly concentrate all the type PVC Shim packings, End Caps, Corner Locks, Water Drain Cover, PVC Wheel Spacer, PVC Rod And We specialize in custom moulding and offer a full range of design and engineering services using computerized production equipment. We can custom mould products in more or less any size, design, or quantity. Our state-of- the-art services include modern development and production technologies, which give us the ability to produce the most durable and consistent products.

Rigid PVC profiles

PVC Packing Flat Shims

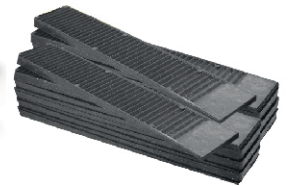

PVC Packing U- Shims

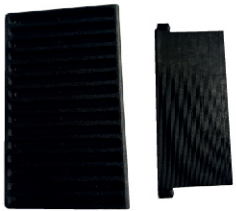

PVC Horce Shim

PVC Square Shims

PVC Tapper Shims

PVC Shim Packings

PVC Shutter Cap Male & Female

PVC Door Stoppers

PVC Corner Connecters

PVC End Caps

Plastic Water Drain hole Covers

Aluminum Spacer Corner Keys

PVC Chair Spacer

PVC Wheel Spacer

PVC Rods

A Complete Fasteners Solutions

Galaxy Middle East continuously seeks advancement and innovation to provide better quality of fasteners at an affordable cost in right time upholding the trust of the customer by maintaining the highest professional integrity. And we have a complete range of fasteners solutions like Self Tapping Screws, Self Drilling Screws, Machine Screw, Wood Screws, Screws With Plugs, Wall Plugs, Black Gypsum Screw, Carriage Bolts, threaded rods, Hex Bolts, Anchor Bolts, Fix Sheild Bolts, Hex Nuts, Dome Nut, Lock Nut, Flat Washer, Spring Washer, Blind Rivets, SDS Bits, HSS Drill Bits, Tighter Bits, Freezing Bits And much more. And we deal with all the Stainless Steel SS202, SS304, SS316 and Galvanized / HDG

SS & GI Self Tapping Screws CSK, PAN, Allen Phillips

SS & GI Self Drilling Screws CSK, PAN, Allen Phillips

SS, GI & Brass Hex Head Bolts

SS, GI & Brass Carriage Bolts

SS & GI Dome, Hex Nut, Lock Nut

SS & GI Anchor Bolts

SS & Aluminum Blind Rivets

SS & GI All Type of Washers

HSS Drill Bits & Concrete Bits

Tighter Bits & Freezing Bits

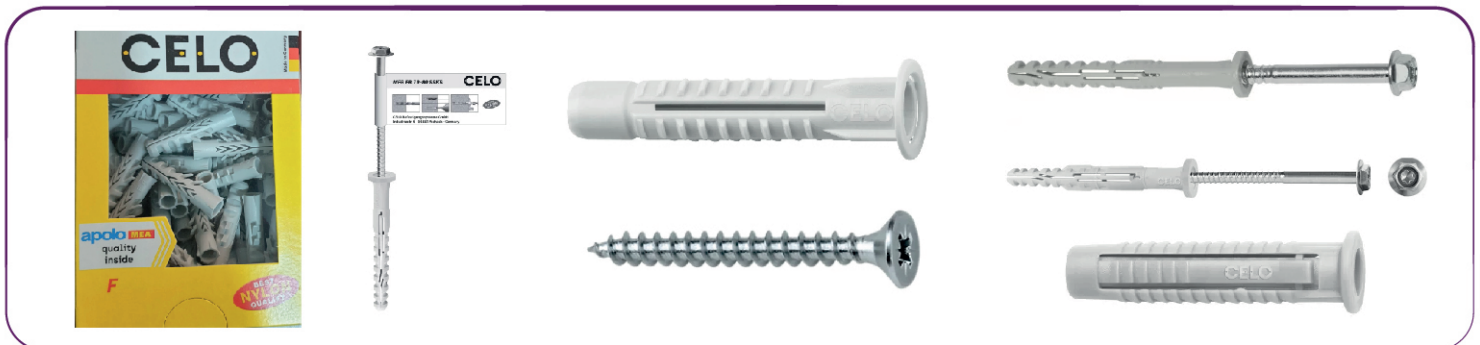

SS & GI Fix Sheild Bolt

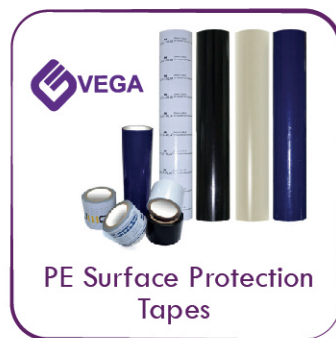

Gypsum Screw

Celo Plugs & fixings

High Quality Tapes & Packaging

Galaxy Middle East Specialist in varieties of high quality packing materials, specially for adhesive tapes that we called it **VEGA**. Vega adhesives are engineered to meet a wide range of industrial bonding and assembly requirements. Our structural adhesives are designed to provide superior bond strength, long life and dependability on a variety of substrates and various applications. Vega brand covers Bopp tapes, Masking Tapes, Auto Motive Tapes Double Sided Tapes, Stretch Film, Aluminum Tapes and Duct Tapes etc. And also we are providing a good quality product of air bubble rolls and corrugated rolls for packing.

Glass & Aluminum Accessories

We have providing a wide range of Aluminum Accessories for doors and windows, The quality of our services we given to our customers and especially the quality of our products, in order to satisfy the requests of every single customer.

Glass To Glass Hinges

Weather Strip Brushes

Polyethylene Foam Products

Polyethylene (PE) foam rod is designed for the use in construction as expansion joint filler in concrete, façade works, Glazing, Curtail Walls etc. this closed cell foam rod is flexible, economical, and easy to install.

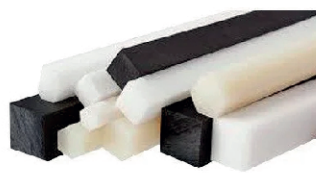

Polyethylene closed-cell foam is available in sheets, cylinders, and tubes that are great for expansion joint filler (backer rod), insulation, buoyancy components, and packaging. Polyethylene foam's versatility can be seen across a wide range of applications, from archery targets and longterm storage, to sill plate gaskets and bond breaker in masonry work. It can also be used as underlay. It is also made in an AntiStatic formulation for the storage, packaging, and transportation of sensitive electronics.

Spray Paints & WD-40

Silicon Sealants & Glass Doubling Products

Easy - to - use silicone sealant which is particularly suitable for structural glazing and cladding applications, fully compatible products for construction and repairs of high-rise buildings from basement to roof for both interior and exterior.

Good quality silicones enhance durability in cladding, structural glazing, exterior facades, and fire protection glass and wood industry which includes;

- General purpose**
- Weather Sealant**
- Fire stopped sealants**
- Special purpose**
- Structural glazing**
- Silicon mirror adhesive**

And also we have Aluminium spacer bar Desiccants, Cork Pads, Spacer Tapes, Spacer Corner Keys etc.
